Gabriel International Trade, LLC.

Capability Statement

Our Company

Our company distributes medical supplies, health nutrition to first, second and third world countries and we import medical supplies into the US. Our medical products are sold to hospitals, clinics, laboratories, non-profit organizations, and governments. We send important items such as syringes, IV bags, gloves, needles, hospital uniforms, respiratory, and blood transfusion equipment.

Our Mission

Gabriel International Trade strives to efficiently supply first, second, and third world nations with necessary medical supplies.

Our Care commitment

Quality and safety are the greatest values GIT offers our customers and remain our top priority. We make sure our equipment is consistently reliable with the most up-to-date software were found in computerized models. Prior to shipping, we examine and qualify each item thoroughly to provide optimal functionality for every operation. At GIT, we are committed to providing the highest level of products and services, so we sincerely welcome and carefully consider all customer comments and suggestions.

How we accomplish our mission:

We travel all over the world to deliver healthcare products to roadblocked countries and supply-chain disrupted third world nations.

We ensure hospitals and health-care teams receive the high-quality supplies and equipment they need to serve remote communities and save thousands of lives.
